San Nicolas Project Put On Hold For Now!

Daniel Ferrara of the Gianni's Group, informed the remodeling of the Old Barbershop, situated in San Nicolas. In this case the place mentioned would be converted in a place where would offer snacks, ice cream, and other products that Gianni's Group is been known for. At the other hand in the outer part of the building would have an office build. A week or two later, after the announcement the work started. But after a while the work stopped. Followed by a stop that is connected with the Coronavirus making its entry in Aruba, which stop is still on going.

Having said that, today I have received the information from a representative of the Gianni's Group, that the project that got the slogan "Coming Back Home", is put on a hold. Really the representative of the Group said, will continue with the project once it is clear that within the Promenade of San Nicolas is a fair demand from the consumer for the products offered. So, we will have to wait and see what is going to become of this project, that is one of the projects presented during San Nicolas Business Association, Business Summit, that took place in the month of August 2019.
